

**Coastal Bend Wildlife Photo Contest
Kritter-4-Kids Wildlife in Focus Curriculum
Grant Application**

The Coastal Bend Wildlife Photo Contest's (CBWPC) goal is to introduce area school children to the vast and wonderful wildlife here in the Coastal Bend. Our Wildlife in Focus Activity Guide and Wildlife in Focus Photo Book serve these goals.

By this application, the CBWPC is able to secure funding by way of grant or gift, to award the applying school the Wildlife in Focus Activity Guide and a set of books. A book set is usually 30, but may differ depending on the schools average classroom size.

Once a school receives its grant of the curriculum and books, the CBWPC will monitor the effectiveness of its program from time to time through pre and post testing. The applicant and/or school agree to provide feedback on the effectiveness of the CBWPC's materials.
